

# eelsnot®

**An Eco-Friendly, High Performance,  
Non Flammable, Non Aerosol,  
Spray Lubricant**

**eelsnot®** is an eco-friendly hydrophobic compound that creates a light very slippery film on any surface, i.e. wood, steel, plastic, aluminum and more! It applies very easily with a buffing pad in each container or you can use any shop towel. Eelsnot® is also a recycled technology made in the USA.

**eelsnot®** reduces friction and decreases wear to all your moving parts. Use it on your tough to move vinyl windows or your old wooden drawer tracks and much much more. Eelsnot® is cold and heat resistant, working efficiently in subfreezing temps to over 400 degrees. Eelsnot® will even protect as it works with its UV protectant qualities.

**eelsnot®** will last many months in some applications and it adheres to fiberglass, epoxy, gel coat, s-glass, wood rubber, polypropylene and anything else. This gives you the freedom to use it anywhere you need less friction or drag.

**eelsnot®** was created for the surf industry to increase the speed of all boards on and in the water. Eelsnot® in its paste form, lasts longer than the competition performs better in all environments and rejects water, (which causes corrosion) more efficiently than anything on the market today. In the spray form, designed specifically for a standard household, shop and boat lubricant, eelsnot® has proven its superiority in all around use and safety. The entire eelsnot® line use the same state of the art ecofriendly and recycled technology.

Every component in eelsnot® is bought and paid for in proudly in the USA, we will never outsource any part of our company or product overseas. We believe very strongly in building our economy here in America where and when we can.

**eelsnot®** has proven successful in these areas over the 36 months of testing and customer feedback and sales. (References available upon request)

**eelsnot®** and Boards Sports ETC, LLC are both environmentally friendly.

***Our product DOES NO HARM!!***

We can only hope that someday other manufacturers of watersports compounds and coatings will see fit to abandon the use of ***Copper and other harmful elements and herbicides*** in their products. It is our goal to honor the environment and those that take care of it.

*"A great little jar of pure value"*

***eelsnot® has won the confidence of Boarders, Boaters and Retailers in the U.S.A. and 40 countries in less than one years' time.***
