

# eelsnot®

**An Eco-Friendly, High Performance,  
Hydrophobic Lubricant Compound**

**eelsnot®** Running Gear, is an eco-friendly hydrophobic compound that

lubricates and protects all surfaces, i.e. wood, steel, plastic, aluminum and more! It applies very easily with a buffing pad in each container or you can use any shop towel. Eelsnot® is a recycled technology which is also made in the USA.

**eelsnot®** reduces friction and decreases wear to all your moving parts.

Use it on your prop, shaft, trim tabs and much more. Eelsnot® is cold and heat resistant, working efficiently in subfreezing temps to over 400 degrees.

**eelsnot®** will last many months per application and it adheres to fiberglass, epoxy, gel coat, s-glass, wood rubber, polypropylene and anything else. This gives you the freedom to use it anywhere you need less friction or drag.

**eelsnot®** was created for the surf industry to increase the speed of all boards on and in the water. A short time after that we discovered that eelsnot® created a super slick barrier on boat hulls that lasted for months making it a very necessary preventative maintenance product reducing cleaning time by over 60% on average. The Properties of eelsnot are of a super lubricant that is totally hydrophobic. Eelsnot® in its paste form, lasts longer than the competition performs better in all environments and rejects water, (which can cause corrosion). Eelsnot® out performs any aerosol lubricant on the market today.

Every component in eelsnot® is bought and paid for in proudly in the USA. We believe very strongly in building our economy here in America when and where and when we can.

**eelsnot®** has proven successful in these areas over the 36 months of testing and customer feedback and sales. (References available upon request)

**eelsnot®** and Boards Sports ETC, LLC are both environmentally friendly.

***Our product DOES NO HARM!!***

We can only hope that someday other manufacturers of watersports compounds and coatings will see fit to abandon the use of ***Zinc, Copper and other harmful elements and herbicides*** in their products. It is our goal to honor the environment and those that take care of it.

*"A great little jar of pure value"*

**eelsnot®** *has won the confidence of Boarders, Boaters and Retailers in the U.S.A. and 16 countries in less than two years' time.*
